Claim Rejections - 35 USC § 112

1. Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 26 is indefinite because applicant has not claimed the combination of the bottom-most heading and yet further requires the heading to be unitary. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2,11,16-18,27,28,36 are rejected under 35 U.S.C. 102(b) as being anticipated by Johannes Menschner or reference 1808071. Johannes discloses a bottom assembly for a container comprising a unitary bottom most heading 12 and an anchoring member 20,21 mounted to the bottom most heading. The anchoring member being inserted through a hole of said bottom most heading and having portions (parts of portion 20, 19) disposed at opposite sides of the bottom-most heading so as to entrap the bottom most heading therebetween. The anchoring member further having a transverse member 26 construed and disposed to anchor a hold down system.

With regard to claim 2, the anchoring member 20 is push or snap into the opening formed by element 16 and mounted thereon.

Art Unit: 3728

With regard to claims 11,18, the anchoring portion is formed with an opening 26.

4. Claims 24,26 are rejected under 35 U.S.C. 102(b) as being anticipated by Smrt (US 5,664,712). Smrt discloses an anchoring assembly comprising an anchoring member 3 and an elastic member 1 secured to the anchoring member by a tie 4,5 passing through the elastic loop member.

Allowable Subject Matter

5. Claims 3-10,12-15,19-21,25,29-40 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

In as much as the official records and applications are located in the clerical section of the examining groups, the clerical personnel can readily provide status information without contacting the examiners, M.P.E.P. 203.08.
